

If I Were Mayor

More Recreation

I think the city needs more recreation because to go to the aquatic park you have to leave the city. If we had one here it wouldn't take as long to get there. Also if it was closer cars would run for a shorter time and release less exhaust so it would be better for the earth. I think we also need more recreation businesses.

More Dining

I think we need more restaurants in Happy Valley because most of the dining we have is quick service fast food restaurants and we should have more slow dining places. If I was the mayor I would have a city food festival to have businesses come and maybe open a restaurant here.

More Color

I think the city needs more color. I think the city needs more color because the city doesn't have many colors and it usually has only beige, brown, and white on the buildings. If I was mayor I would add a community mural and change the building code to add more color.

More Sidewalks

I think the City of Happy Valley needs more sidewalks in some areas. I think that we need more sidewalks because it is not safe to walk in the road and it is not polite to walk in somebody else's yard. Also if there were more sidewalks it would encourage people to walk. If more people walked it would be better for the environment.

A community is:
A feeling of fellowship with others, as a result of sharing common attitudes, interests, and goals.

To create a community in Happy Valley I will build a recreation center where people can gather and make friendships while doing things they like.
