

# Upcoming ODOT safety project on OR 224 at Goosehollow Drive

## ODOT is getting ready to install a traffic barrier to prohibit left turns onto OR 224 from Goosehollow Drive in Happy Valley.

In January 2021, ODOT will build a raised traffic separator at the intersection of OR 224/Clackamas Highway and Goosehollow Drive. The traffic separator will prevent left turns from Goosehollow Drive onto OR 224 and will prevent traffic on Goosehollow Drive from crossing straight across the intersection. ODOT will install this traffic separator to address crash concerns at this intersection, particularly with left turns onto the highway. Left turns from OR 224 onto Goosehollow Drive and right turns from Goosehollow Drive onto OR 224 will still be allowed. Bicyclists and pedestrians will be able to cross OR 224 on Goosehollow Drive after ODOT installs the traffic separator.

After the traffic separator is installed, **left turning traffic from the neighborhoods connected to Goosehollow Drive will use the signal at Eckert Lane** to turn left onto OR 224.

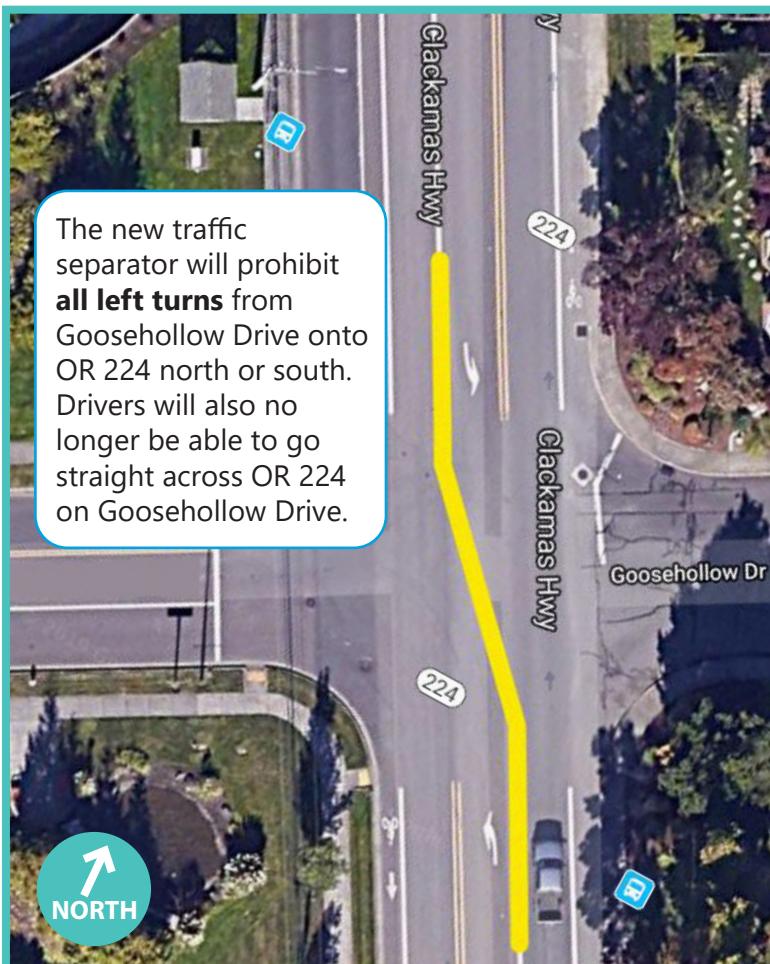

### What will no longer be allowed (drivers will use Eckert Lane instead):

- Left turns from Goosehollow onto OR 224.
- Straight across OR 224 on Goosehollow.

### What will still be allowed:

- Left or right turns from OR 224 onto Goosehollow.
- Right turns from Goosehollow onto OR 224.
- Bicyclists and pedestrians crossing OR 224 using a gap in the traffic separator.

The layout of the future traffic separator on OR 224 at Goosehollow Drive is shown in yellow on the left. The new traffic separator will keep both left turn lanes on OR 224 open, but will prohibit cars from making left turns onto OR 224 or going straight from both the east and west side of Goosehollow Drive.

**See the other side of this flyer to learn about traffic impacts and nighttime noise during construction.**

*An example of the type of traffic separator that ODOT will install on OR 224.*

# Upcoming ODOT safety project on OR 224 at Goosehollow Drive

December 2020

## About the project

ODOT is getting ready to install a traffic separator on OR 224 at Goosehollow Drive in early 2021. The traffic separator will improve safety and reduce crashes at this intersection by prohibiting left turns from either side of Goosehollow Drive onto OR 224. The traffic separator will also prevent drivers from going straight across OR 224 on Goosehollow Drive. Right turns from Goosehollow onto OR 224, as well as all turns from the highway onto Goosehollow Drive, will still be allowed. After the traffic separator is installed, left turning traffic will use the traffic signal at Eckert Lane to turn onto OR 224. **Read more inside this flyer.**

## Construction impacts

We expect work to begin in January 2021. Travelers can expect daytime and nighttime traffic impacts for up to four days during construction, including lane closures on both OR 224 and Goosehollow Drive.

During one night of construction, Goosehollow Drive will be closed for all traffic on both sides of the highway with a detour using Eckert Lane.

## Nighttime noise

Residents nearby may hear some noise from construction equipment. For nighttime noise concerns, please call 503-515-1193.
