EROSION / SEDIMENT CONTROL INFORMATION	
This erosion control permit is issued in accordance with City of Happy Valley Ordinance 141. You are required to call for an erosion control inspection before undertaking any construction, grading or excavation. A final erosion control inspection is required before occupancy can be granted. The City will conduct additional erosion control inspections during construction, and/or require the implementation of additional erosion control measures if the City deems such measures to be necessary. Any site in non-compliance will be re-inspected. Re-inspection fees may be charged on those sites that fail to take corrective actions in full by the time of the next inspection. Stop Work Orders will be issued on sites that continue to fail to comply with erosion control requirements.
