Addendum No. 1

May 26, 2026

For The Contract Documents For The

2026 ADA Improvements CIP-05-26

NOTICE TO ALL PLAN HOLDERS:

You are hereby notified of the following clarifications, additions, and/or revisions to the contract documents for the above referenced project:

QUESTION FROM CONTRACTOR

Contractor: Contractor stated “no one will mill concrete. It would be less expensive to remove and replace”.

Engineer Response: Grinding concrete is a standard method for partial removal of concrete. The existing concrete on site called for grinding is 8" thick at the Mountain Gate intersection, and 12" with reinforcement at 5" deep within the roundabout. The contractor is allowed to submit a value engineering proposal after bidding is complete if an alternative removal methodology is proposed.
